J01 Dispatching ConsolePoint
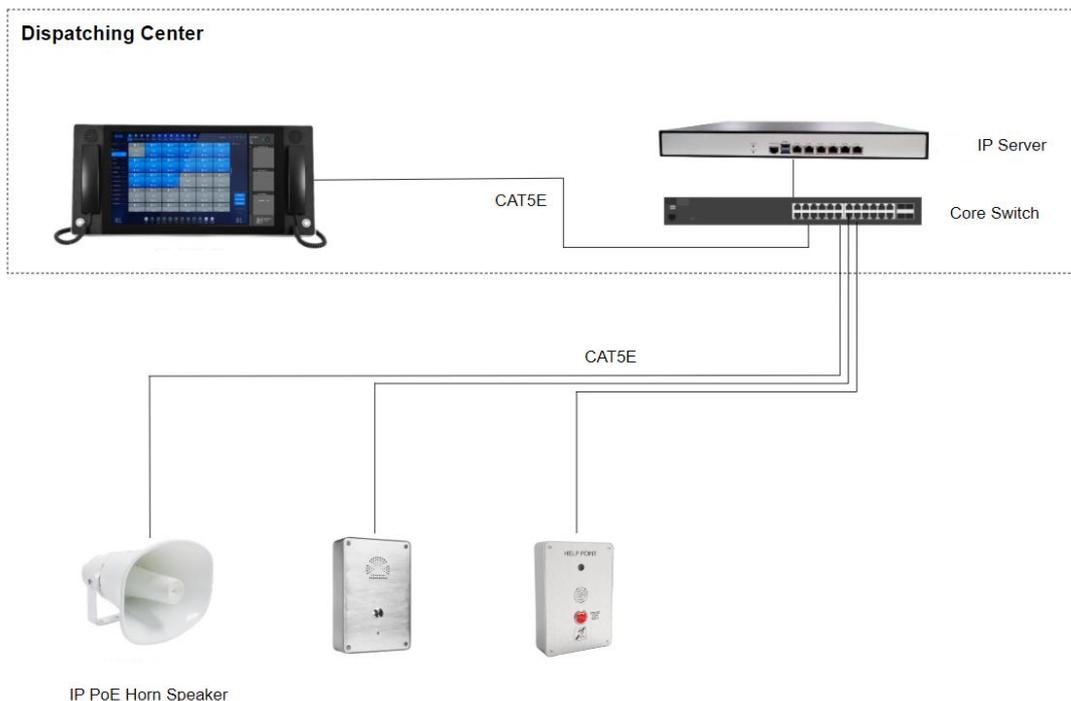

J01 dispatching console serves as the operational hubwithin the dispatching system, playing a crucial role in systemfunctionality. Using system software, operators can establishcommunication with the dispatch host, enabling operations such as forced removal, forced insertion, calling, video conferencing, and other essential dispatching functions.

MAIN FEATURES

★ J01 Dispatching Console

-This product is a powerful embedded computer and interactive touch screen terminal.

-It supports modular design, allows configuration of a single handle, HD telephone handset, microphone, etc., can be customized and integrated into telephone and communication equipment, and has convenient operation and management functions.

-The dispatch console combines powerful performance, stable operation, and rich application support. It is an ideal choice for enterprises and institutions engaged in information technology deployment and interactive display.

TECHNICAL SPECIFICATIONS

Body part	
Chassis material: galvanized steel plate, aluminum alloy, 6.8kg	Chassis features:desktop,wall-mounted integrated chassis/aluminum alloy frame
Power supply: external support DC 12V 10A power adapter	Chassis size: 556mm*305mm*32mm (with keyboard and without base)

Host configuration	
PCB board	Industrial control PCB board
Processor	I5-4200H high-performance quad-core processor
Internal storage	8G DDR3
Internal storage	128G SSD solid state drive
Expansion interface	VGA interface, HDMI interface, USB2.0*2，USB3.0*2
Sound card	Integrated
I/O interface	1*RJ45, 4*USB, 2*RJ45 LAN switching port, 1*AUDIO, 1*RS232
Switch	Self-resetting switch

Show part	
Screen size	17.3-inch LCD touchscreen - wide viewing angle
Resolution	Maximum resolution 1920*1080 Display ratio 16:9
Working temperature	-30℃-60℃
Service life	30,000 hours

Touch part	
Sensing method	capacitive touch screen, USB interface
Touch resolution	4096*4096
Contact accuracy	±1mm
Light transmittance	98%

Network characteristics	
Gigabit switch	Built-in Gigabit switch

Phone part	
Telephone parameters	2 built-in customized phones, command to query IP, one-click hands-free, support WEB management, Support MIC input
